Introducing Our 2026 Fall, Holiday & Everyday Design Resource Guide for Fruit Bouquets® and Shari's Berries®

Our new and returning offerings have a few things in common: They're all delightfully delicious and certain to add fresh flavor and flair to the season.

FALL

Autumn is filled with celebrations, and we're here to make those occasions even more memorable. Our new **Gourmet Gobble™**, which includes chocolate-dipped pineapple slices designed to look like an adorable turkey, will bring whimsy to the Thanksgiving table. And guests are sure to gobble up our irresistible **Happy Turkey Day Dipped Strawberries™**.

Our returning **Gourmet Fall Dipped Fancy Strawberries™** and **Gourmet Autumn Dipped Strawberries™** are ideal for birthdays, anniversaries, and date nights, while our updated **Fall Dipped Fruit Platter** will enhance any gathering with its dynamic colors and juicy goodness. **Flavors of Fall™** is also back, featuring leaf-shape pineapple slices, toffee-coated apple wedges, and more in a colorful autumnal container.

HALLOWEEN

For Halloween, we've scared up some frightfully fun treats. Decorated to resemble mummies, jack-o'-lanterns, and three-eyed ghouls, our **Monster™ Dipped Strawberries** will be the hit of any gathering. Jack-o'-lantern strawberries, along with other spooky-sweet delights, also feature in our **Gourmet Halloween Dipped Strawberries™** and **Halloween Dipped Fruit Platter**.

Introduced last year, **Trick or Treat Sweets™** proved so popular, we've brought it back. Bursting with dipped pineapples resembling ghosts and jack-o'-lanterns, melon wedges, and more, it's a gift that screams Halloween fun.

HOLIDAY

It wouldn't be the holidays without our chocolate-dipped berries. Decked out in red and green, the **Santa's Reindeer™ Dipped Strawberries** and **Holiday Cheer™ Dipped Strawberries** are delectable examples of yuletide spirit. Our **Frosty Fun™ Dipped Strawberries**, featuring berries decorated to resemble snowmen, celebrate the joys of winter, while the **Chocolate Covered Strawberries for Hanukkah™** go perfectly with latkes and dreidels.

Pineapple slices decorated to resemble cheerful gingerbread men are the stars of two returning favorites, the **Jolly Gingerbread™ Arrangement** and the **Scenes of Winter Fruit Arrangement™**. Each also includes a bevy of other fruit, from juicy grapes to orange wedges. And to welcome 2027 in a flavorful fashion, we've updated our **Cheers to the New Year™ Fruit Platter**.

EVERYDAY

There's no need to wait for a special occasion to send or savor fresh, beautifully presented fruit. Our bountiful **Sweet & Delicious™** arrangement will make any day feel special. Likewise, **Cup of Cheer™**, topped with a smiling daisy-shape pineapple slice, is certain to lift the spirits of any lucky recipient, while messages of love don't get any sweeter than our **Berry Cute® Fruit Arrangement**, designed in a reusable container decorated with hearts.

THANK YOU

We hope you're as excited as we are about our **Fruit Bouquets®** and **Shari's Berries®** assortments. Your support inspires the creation of exclusive and original products that delight gift givers and boost revenue in your retail locations. We thank you for your dedication and wish you a happy, healthy, and successful fall and holiday season.

HOW-TO CREATE: PINEAPPLE PUMPKIN

STEP 1:

Dip pineapple pumpkin in brown chocolate coating. Stick the pumpkin in a foam board for drying.

STEP 2:

Using orange chocolate coating in a piping bag, outline the edge of the pumpkin.

STEP 3:

Create curved lines from top to bottom of pumpkin (or bottom to top).

STEP 4:

Using green chocolate coating in piping bag, add the stem of the pumpkin to complete. Let chocolate dry and add into arrangement.

HOW-TO CREATE: TURKEY FACE

STEP 1:

Use daisy cutter to cut pineapple.

STEP 2:

Cut bottom two petals off.

STEP 3:

Dip in milk chocolate confection and allow to dry.

STEP 4:

Add eyes and beak to the face. Keep as low as possible to leave room for the feather. Or, purchase and use Wilton candy eyeballs referenced on page 18.

STEP 5:

To create feathers, create three vertical lines in the center top petal with red, orange, and yellow chocolate confection.

STEP 6:

While still warm, use a skewer to blend the orange out to the red and yellow side, creating a feather-like design.

STEP 7:

Your completed Turkey Face should now look like this.

HOW-TO CREATE: PINEAPPLE SKULL

STEP 1:

Cut pineapple into 3/4" slices and use 3" skull cookie cutter to create shape. Skewer and dry thoroughly.

STEP 2:

Dip pineapple in white chocolate compound and gently tap or shake off excess chocolate. Let dry.

STEP 3:

Use chocolate compound in a piping bag to create the skull's face.*

STEP 4:

Draw 2 diagonal lines for the nose. Next, draw a horizontal line for the mouth.

STEP 5:

Lastly, add shorter vertical lines to complete mouth.

*If you have round milk chocolate compound wafers, you can use these to create the eyes.

HOW-TO CREATE: TIME FOR CAKE!™

STEP 1:

Cut about 1/4 of a head of lettuce and place into bottom of green tray. Cover with green kale.

STEP 2:

Place 1 whole lettuce head on top.

STEP 3:

Using 3 skewers, insert them into the lettuce at an angle to secure lettuce to base.

STEP 4:

Cut down the round sides of the lettuce to create a cylinder shape.

STEP 5:

Final cylinder shape.

STEP 6:

Place green kale around the lettuce, using the pineapple stars to hold it in place.

STEP 7:

Add green kale to the top of the cake and continue to insert skewered fruit.

STEP 8:

Continue to insert fruit to create the cake shape, stars around the sides, strawberries around the bottom, and honeydew around the top rim. You can then fill in the remainder of the cake with the grapes and other fruit.

DESIGN TIP:

For the flames on the candles, use the pineapple pieces left from the stars to cut out a flame shape.

QUALITY AND PERFORMANCE STANDARDS

To consistently meet and exceed customer expectations, 1-800-Flowers.com® maintains strict quality and performance standards in the fulfillment of its orders, including Fruit Bouquets by 1-800-Flowers.com® and Shari's Berries® orders.

To receive orders for fulfillment, it is critical that you familiarize yourself with the key performance metrics below. BloomNet® Members can find their individual Monthly Performance Report under the "Utilities" tab on BloomLink®.

Below is a list of the key quality and performance metrics that 1-800-Flowers.com monitors for every fulfillment partner, along with helpful tips for keeping these metrics in line with expectations:

- **Number of orders with a reported Customer Service Issue (CSI)—less than 1.5%**

There are three specific categories of CSIs monitored:

- 1) Delivery Issues, which occur when a customer states that their delivery was not received or was not received on time.
- 2) Wrong Deliveries, which occur when a customer states that they received the wrong gift, that their gift is missing one or more components, or that their gift does not resemble what they ordered.
- 3) Quality Issues, which occur when a customer states that the quality (freshness, durability, and/or appearance) of the gift did not meet their expectations.

- **Real-Time Delivery Confirmations and Delivery Attempt Notifications—100% on the date of delivery**

Today's consumer expects real-time visibility into the status of their order. It is no longer enough to submit Delivery Notifications at the end of a driver's trip, because consumers expect to know about their delivery as soon as it is completed or attempted. When you provide accurate and timely Delivery Confirmations (DLCs) and/or Delivery Attempt Notifications (DLAs) immediately following the delivery of an order, we are better able to inform the customer about the status of their order. This helps us better manage customer expectations and provide a superior, well-informed level of customer service. As a result, the electronic submission of a Delivery Notification in real-time often results in reduced CSIs.

It is also important that you do not submit Delivery Notifications prior to completing or attempting to complete a delivery because Delivery Notifications trigger an immediate communication to the customer. Therefore, if you submit an inaccurate or premature Delivery Notification, you may risk causing confusion for the customer and prompting them to call with a CSI. Note, the purposeful submission of an inaccurate or premature Delivery Notification can be grounds for immediate and permanent suspension from receiving orders.

Visit the Utilities section on BloomLink® to learn more about the various tools available to your shop to support the submission of Delivery Notifications in real time, and please refer to our Delivery Expectations documentation for additional information.

- **Number of Rejected orders—0%**

1-800-Flowers.com has a no-reject policy for Fruit Bouquets by 1-800-Flowers.com® and Shari's Berries® orders. Fulfilling shops are expected to have adequate stock of all perishable and non-perishable components required to fulfill referred orders to recipe and to service all zip codes in their delivery profile until each day's cutoff time.

If your shop must reject an order due to unforeseen and extenuating circumstances, please be sure to call a member of the operations team in a timely manner so that we can attempt to address the issue with the customer before it is too late.

If your shop is not a florist and you receive a floral order in error, please be sure to reject the order immediately after receipt so that the order can be re-routed for fulfillment before it is too late. Under these specific circumstances, timely rejection of such orders will not affect your shop's fulfillment performance.

- **Number of orders fulfilled without a Price Change—100%**

Fulfilling shops are expected to fill every order to value, according to the product description, price, and recipe without requiring a Price Change. Payment amounts for all Fruit Bouquets by 1-800-Flowers.com® and Shari's Berries® products are designed to cover the fulfiller's delivery cost.

To help prevent service issues, please be sure to keep us informed of any problems with the fulfillment of an order by sending INFO Messages on the order via your BloomLink system. Any and all information you provide on a specific order will allow us to better service the customer and should help reduce the risk of CSIs and unnecessary order cancellations.

Note: Quality and Performance Standards are subject to change. Visit the Utilities section on BloomLink® for the most up-to-date version of the document.

DELIVERY EXPECTATIONS

At 1-800-Flowers.com, we're obsessed with providing a terrific customer experience. We take pride in reassuring our customers that their orders from Fruit Bouquets by 1-800-Flowers.com® and Shari's Berries® will arrive fresh, safely, and perfectly designed by our local shops, and that the delivery experience will exceed their expectations.

Today's consumers have higher expectations than ever before when they place an order for delivery. They expect that orders will be delivered on time and that they will be informed about the status of their order in a timely manner. As always, our goal is to meet and exceed evolving consumer expectations and support our 100% Smile Guarantee.

To that end, the following sections outline Delivery Expectations for the fulfillment of all Fruit Bouquets by 1-800-Flowers.com and Shari's Berries orders:

Product Care

To maintain optimal freshness, all components and finished products must be maintained in an appropriate temperature controlled environment at all times, including during delivery, and kept in compliance with all applicable national, federal, state and local food safety related laws.

Delivery Experience

Orders must always be delivered in clean and clearly identifiable delivery vehicles, and delivery drivers are always expected to exhibit professional, courteous behavior and presentation.

Delivery Times

All residential deliveries must be completed between 9:00 AM and 7:00 PM, and all non-residential deliveries must be completed between 9:00 AM and 5:00 PM.

Orders with a Delivery Time Window (DTW) must be delivered between the start time and end time of the specified delivery window.

Calling Ahead

Do not call the recipient ahead of attempting a delivery unless the notes on the order specifically state that it is okay to do so. Calling ahead may ruin the surprise for the recipient, result in a poor customer experience, and increase the number of customer complaints. On the other hand, if the customer has given permission to call ahead and the order notes state that it is okay to do so, then it is advisable that you call ahead to ensure that the recipient will be available at the time of delivery.

If an order is for delivery to a funeral home, then it is advisable to call the funeral home ahead of time in order to find out when and how the delivery should be made.

Completed Deliveries

Upon successful completion of a delivery, the fulfilling shop must always submit a Delivery Confirmation (DLC). Please note that the DLC will automatically trigger an electronic communication to the customer to inform them that the delivery has been made.

If the intended recipient is physically unavailable at the time of delivery, the fulfilling shop may leave the arrangement with another person (i.e. third-party delivery). Be sure to specify who took possession of the delivery when submitting a DLC.

Food products must always be left with a person. Food products cannot be left unattended (e.g. doorstep, porch, etc.).

Delivery Confirmations are an integral part of the fulfillment cycle. Successful fulfillment of an order is not complete until a Delivery Confirmation has been submitted.

Delivery Attempts

Whenever a delivery is attempted but cannot be completed, the fulfilling shop must always submit a Delivery Attempt Notification (DLA). Please note that the DLA will automatically trigger an electronic communication to the customer to inform them that the delivery was attempted but could not be completed. When submitting a DLA, be sure to provide as many details as possible, including the time of day when the delivery was attempted (e.g. rang bell but nobody answered).

If a delivery is attempted but cannot be successfully completed, leave a door tag at the recipient's location informing them that the delivery was attempted. If a door tag cannot be provided, call the recipient (if phone number is available) and leave a message to notify them that the delivery was attempted.

Real-Time Delivery Notifications

Delivery Notifications must be submitted in real-time, immediately following the successful or attempted delivery of all orders. Today's consumer expects real-time visibility into the status of their order. It is no longer enough to submit Delivery Confirmations (DLCs) and Delivery Attempt Notifications (DLAs) at the end of a driver's trip.

Submitting accurate and timely Delivery Notifications often results in reduced Customer Service Issues (CSIs) which, in turn, often results in reduced order cancellations with the fulfilling shop. Please be sure to provide as much detail as possible when submitting a Delivery Notification, such as who took possession of the delivery (e.g. intended recipient, front desk, receptionist, etc.).

Please note that BloomNet offers a variety of innovative technology tools to make it quick and easy to submit Delivery Notifications in real-time, including BloomNet's Enhanced Delivery Program.

Please visit <http://www.bloomnet.net/technology> and the Utilities Section on BloomLink to learn more about these tools.

In exceptional cases, when a Delivery Notification cannot be submitted in real-time, the following minimum thresholds must be adhered to:

- 100% of Residential deliveries without a specified Delivery Time Window must be electronically confirmed no later than 7:00 PM on the date of delivery.
- 100% of Business and Non-Residential deliveries without a specified Delivery Time Window must be electronically confirmed no later than 5:00 PM on the date of delivery.
- 100% of all deliveries with a specified Delivery Time Window must be delivered within the start and end time of the specified Delivery Time Window and electronically confirmed no later than 1 hour after the end of the specified Delivery Time Window on the date of delivery.

Important Reminder:

Do not submit Delivery Notifications prior to completing or attempting to complete a delivery, because Delivery Notifications trigger an immediate communication to the customer. Inaccurate or premature Delivery Notifications often result in costly CSIs and order cancellations with the fulfilling shop.

Proof of Delivery

Fulfilling shops are expected to obtain Proof of Delivery on all orders. Obtaining Proof of Delivery can safeguard shops from order cancellations and non-payment when a customer claims that an order was not delivered.

Fulfilling shops are expected to provide Proof of Delivery to 1-800-Flowers.com upon request and in response to a non-delivery complaint from a customer and/or an order cancellation dispute.

BloomNet shops using the BloomNet Business Management System's FREE Local Delivery Management App are required to proactively submit Proof of Delivery electronically on every order, thereby reducing the chances of an order cancellation dispute.

Proof of Delivery should be captured in the form of:

- A delivery signature from the recipient
- A delivery photo that captures the product and delivery location in the background

Collecting both forms of Proof of Delivery is preferable to collecting only one. However, please note that collecting delivery signatures is not feasible while "contactless deliveries" are in place, and only delivery photos should be obtained under this circumstance.

When capturing delivery photos, please refrain from attempting to capture the recipient in the photo, as some recipients may not feel comfortable being photographed without their explicit consent.

Note: Delivery Expectations are subject to change. Visit the Utilities Section on BloomLink for the most up-to-date version of the document.
